

# INTERACTIVE BROCHURES

## What we need to make one for you!

The interactive brochure is a 10-page document. If you have upgraded to additional pages, you can still use this as the basis for putting yours together. Throughout the piece, the word count should be minimal; let the high-resolution photos and videos do the heavy lifting. Following are topics and necessary items for each page. Be creative and highlight what makes your school unique and why students would want to study there!
